Telehealth Services Flexibility

In keeping with the vision and mission of Albizu University, the GPSC, Albizu Clinic is the in-house training facility for all clinical programs. The clinic has integrated services for speech and language pathology and clinical psychology. Our students provide a service where they learn the latest techniques, utilize a variety of techniques and theoretical orientations and are supervised by licensed clinicians.

Guided by security measures and protocols, we are offering 100% telehealth services. All telehealth appointments are conducted through secure and encrypted Zoom sessions providing privacy and fully meeting HIPPA standards. We are now able to conduct telehealth across the entire state. We are dedicated to helping fit your healthcare into your busy schedule.
